

Catalog No. 4

Year No. 1907

Catalog 1907 And Spring of 1908.

Peony Gardens

OF

George Hollis,

128 Hollis St. South Weymouth, Mass.

IN my gardens are found specimens of the following list of Peonies, and I am constantly adding to it by *purchase and new varieties from seed*. I have received numerous *Honorable Mentions and several First Class Certificates of Merit* by the Massachusetts Horticultural Society.

I ALSO RECEIVED THE KELWAY BRONZE MEDAL

for eighteen varieties which were of my originating. Also the

FIRST PRIZE OF THE NATIONAL PEONY SOCIETY

held in Boston 1906, and I have received three Honorable Mentions this season.

My seedlings are numbered by the thousand, in all stages of development from the tiny seedling to the blooming size, and as they come into bloom something new that is meritorious is presenting itself each season which I intend to introduce as soon as possible.

I would recommend that all customers get their plants in September while the plants are dormant, before they start root growth; but they can be planted any time before the frost closes the ground. Do not expect to get an exhibition flower the first season as the plant must first get established.

No accounts opened for less than \$10.00 Remittances can be made by P. O. Money Order. Cash is sent at the sender's risk. For orders greater than \$10.00 references can be made of some Banking Institution as to credit. Mention the line of Express goods are to be sent.

Remember; you can save 5% on all purchases by sending cash with the order.

<i>Conqueror</i> , large, deep pink.	5.00

<i>Supreme</i> , a lovely shade of pink; form round and full.	10.00
<i>Sweet Home</i> , white flushed with violet, giving it a rosy east, medium size.	3.00
<i>Usona</i> , pink flushed with white, large size and good form.	5.00
<i>Veribest</i> , white, very large and beautiful.	10.00
<i>Zest</i> , silvery rosy pink. very late and superior.	10.00

Japanese Varieties \$1.00 each, except noted.

These were all originated by me. In these varieties the outer or guard petals are large, and the inner ones are transformed into golden stamens, (without pollen,) or very narrow fillimentaceous petals; making them very unique flowers.

Attraction, crimson pink, very fine.

Arcadia, crimson guards and golden center.

Bobbie Bee, reddish in color, new.

\$2.00

Crown of Thorns, reddish with thorny center.

Flash Light, crimson, burnished golden center. New.

2.00

Gypsy, deep crimson guards, golden center.

Goldmine, yellowish in color.

Glory, bright yellow center.

Humpty Dumpty, glowing crimson, large golden center.

Innocence, pale pink guards, golden center.

Prince Alert, deep pink guards, long yellow central petals.

Sunbeam, pale straw guards and yellow center.

Youth, light guard and light center. A very delicate flower.

Single Varieties,

Separate colors, (except white,) 25 cents each.

White 50 cents each.

I have a lot of mixed seedlings at \$5.00 per hundred. Not less than 25 sold at these rates. They make fine beds and borders for lawns and parks.

All are worthy the notice of Superintendents of Parks and Cemeteries.

The following list includes many of my seedlings which have been exhibited several times and have received many Certificates of Merit and Honorable Mentions, and which I am asked to include in my list.

—THIS BEING THE FIRST TIME THEY HAVE BEEN CATALOGED—

I have only a small stock of many of the varieties, from three to eight plants, hence the high prices, but they are all new and worthy. When you consider the time and care necessary to produce them they are not high. The market is supplied with too many ten cent plants. The public are getting their fill of the bargain varieties and the taste needs stimulating. For it is the higher priced ones that are found on the exhibition tables, and it is such they want, and the higher priced ones that are the most beautiful.

LIST

- *Admiral Togo*, deepest mahogany red, large high flower; extra fine. \$5.00
